Frost Tolerance: 1: Plant 6-8 weeks before frost date 2: Plant 2 weeks before frost date 3: Plant after frost date Last frost: 50% April 18, 90% May 1

Cover: NC = No cover, needs light, C = cover, Lt = lightly cover

** This record is what we used for planting annuals in 2015. We are not responsible for errors or omissions. It's intended for informational purposes only. **

This seed schedule exhibits the labor-intensive business model of mixed bouquets. A large variety of flowers is beautiful, but difficult to maintain. We found specializing in one or more perennials to be a much more streamlined and profitable business model. Learn more from our book:
